

## Training Course for the Management and Use of the Virtual Library in Border Health (VLBH)

The course is organized by the Secretarial Course of the Virtual Library in Border Health, which headquarters are in the *Centro de Investigación y Desarrollo en Ciencias de la Salud* (Center for Research and Development in Health Sciences) of the UANL, and the *Organización Panamericana de la Salud* (Pan American Health Organization), with the Binational Thematic Network in Border Health; and involves four of the Virtual Library in Border Health (VLBH) components, Health Sciences Descriptors (DeCS), Health Scientific Events Directory (DirEVE), Health Information Locator (LIS) and Institutions, Projects and Specialists Directory (DirIPE)

### □ Course aim

To provide a general introduction about the VLBH and each one of its components and to provide the necessary knowledge to implement the registry of information sources in the VLBH such as web pages, scientific events, information about institutions, projects and specialists, using the VLBH methodology.

### □ Public

It is aimed to health library operators and professionals of health, education and research institutions along the Mexico-United States border interested in the outreach of scientific knowledge and dissemination of health information (limited quota: 15 people).

## □ Attendee's Profile

- Basic knowledge in the use of computer equipment and Internet navigation.
- Ability to elaborate content summaries.

## □ Place, Date and Duration

The course has an 8 hour duration and will be given on November 11, 2016 in the *Aula Electrónica* (Electronic classroom) of the *Unidad de Administración del Conocimiento* of the *Centro de Investigación y Desarrollo en Ciencias de la Salud* (Center for Research and Development in Health Sciences).
